Manufacturing Infrastructure: Düzce Production Facility

Situated in Düzce - Turkey, our state-of-the-art Cultured Marble & Panel Production Factory serves as the industrial core of our global manufacturing operations. Spanning an expansive footprint, this highly integrated facility is purpose-built to meet the rigorous logistical and structural demands of large-scale commercial and luxury architectural projects.

Facility Total Area: 35,000 Sqm

Production Capacity: 50,000 Units Per Month

Core Operations: High-volume, precision manufacturing of custom cultured marble vanity tops, heavy-duty shower trays, and large-format seamless architectural wall panels

MaryFass:

The Pinnacle of Cultured Marble Innovation

Functioning as the luxury architectural division of the Gert Metal Group, MaryFass caters to sophisticated design requirements by utilizing our advanced cultured marble—a specialized blend of natural calcium carbonate and polyester resin—that seamlessly merges structural durability with aesthetic luxury. Our premium product lines are engineered specifically for architects, interior designers, and commercial builders who demand uncompromising quality.

Sinks & Integrated Vanity Tops

Seamless, one-piece basins engineered for high-traffic luxury environments. These permanently sealed, non-porous surfaces resist heat, impacts, and stains. Factory-prepared with pre-drilled holes and no overflow for maximum hygiene, they ensure rapid installation and minimal maintenance for large-scale commercial projects.

Seamless Shower Wall Panels

Crafted from a durable blend of natural calcium carbonate and polyester resin, these large-format panels provide a 100% waterproof, zero-grout architectural envelope. Featuring near-zero water absorption and thermal stability, they actively resist mold and scaling while replicating the elegance of natural stone for premium developments.

Heavy-Duty Shower Trays & Pans

Cast from high-grade composites, these rigid, cultured marble trays form a secure, leak-proof foundation. Engineered with precise drainage slopes and a calibrated anti-slip texture, they are available in bespoke dimensions to flawlessly accommodate complex luxury architectural blueprints.

GERT METAL:

Integrated Metal Systems & Manufacturing Holding

Gert Metal serves as the parent holding company and primary investor for a diverse ecosystem of manufacturing facilities across Turkey. With three distinct factories and four specialized brands under our management, we stand as a powerhouse in the construction and architectural manufacturing sector.

Our Evolution: Founded with a focus on manufacturing and assembling Aluminum Railings, we enriched our capabilities to include stainless steel and diverse metal systems.

Core Capabilities: We are proud to be the first and only company in Turkey to manufacture and assemble such a wide array of product groups under a single roof. Our expertise covers:

- Aluminum Facade Systems
- Aluminum Joinery & Winter Gardens
- Stainless Steel Manufacturing
- Aluminum Grilles & Railings
- Metal Suspended Ceilings
- Pergola & Automation Systems

MARYFASS CULTURED MARBLE VANITY TOPS & WALL MOUNTED MODELS

Our state-of-the-art factory infrastructure allows for the precise fabrication of monolithic, seamless basin constructions tailored to exact project specifications. We offer comprehensive configurations designed exclusively to meet the rigorous demands of large-scale hospitality and commercial blueprints:

Single Bowl Configurations: Streamlined, space-efficient monolithic designs engineered for premium standalone commercial washrooms and boutique hospitality suites.

Double Bowl Configurations: Expansive, high-capacity dual-basin layouts designed for high-traffic luxury environments and premium commercial restrooms.

Bespoke Customization (Size / Color / Model): Fully parametric fabrication capabilities. We offer precise dimensional tailoring, custom pigment matching, and unique architectural mold creation to seamlessly integrate with complex commercial designs.

The MaryFass Standard

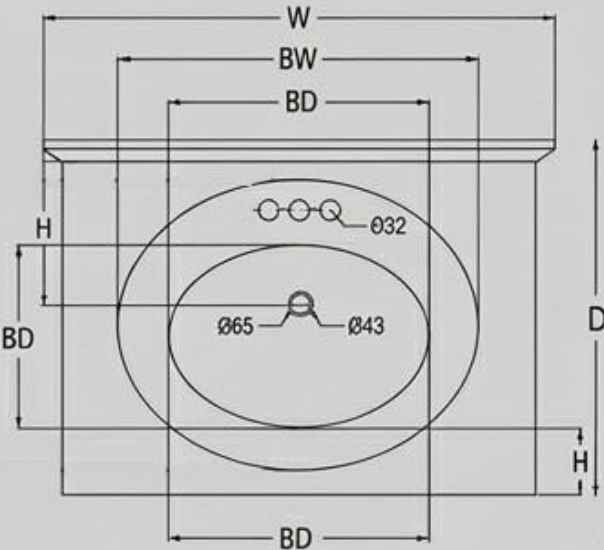

Engineered specifically for architects, interior designers, and commercial builders who refuse to compromise on quality. The permanently sealed, non-porous surfaces of our cultured marble tops guarantee maximum hygienic control, zero water absorption, and exceptional resistance to high heat, heavy impacts, and daily staining. By combining cutting-edge manufacturing technology with meticulous craftsmanship, MaryFass delivers bespoke wash stations perfectly suited for high-traffic luxury hotels, premium architectural complexes, and expansive commercial developments.
